

not generally believed any of the favorite vote can be held all the way through.

When the Republican national committee resumed the hearing of delegate contests today, formal announcement was made that the seat of A. R. Wood of the Fifth Oklahoma district, who died Saturday, would be automatically given to his alternate, Amos A. Ewing of Guthrie.

P. H. Brettle, counsel for the contesting delegates-at-large from Texas, withdrew in the interest of party harmony and the regular delegation are H. P. MacGregor, Phil E. Reer, Eugene Marshall, C. M. Johnson, B. A. Harvin, Wm. McDonald, C. L. McDowell and B. E. Leale.

The dispute arose in the state convention and several counties withdrawing, selected a second delegation to the convention.

Formal announcement was made of the withdrawal of the contest in the Seventh Texas district, seating W. H. Clifford and R. W. Humphrey.

**Sixth District Passed.**

The contest in the Sixth Texas district was temporarily passed. Withdrawal of a contest in the Eighth Texas district in which no briefs had been filed seated Roy B. Nichols and William Watson.

Hearing of the contest in the Fourteenth Texas district was then called in which Dr. Frederick Terrell of San Antonio and William Bierschwale of Frederickburg assert they were regularly elected delegates to the national convention and that of the F. E. Sobsey and Marshall Smith, the contestants, were not regularly chosen.

**Calla Hughes Inevitable.**

Francis Hitchcock, who is working for the Hughes forces, issued a formal statement today declaring that the nomination of Justice Hughes is inevitable.

Justice Hughes will receive more votes on the first ballot than the combined strength of the favorite son candidates, which is 345 votes, said Hitchcock.

The Hitchcock statement emphasized that it will require 493 votes to nominate a candidate.

The progressive national committee decided today to withhold nominating a candidate at the progressive convention until next Saturday, awaiting the action of the republican convention.

Although no progressive assembly considered the nomination of any other than Colonel Roosevelt, no arrangements for the formalities have been made. It has not even been decided who will place the candidate's name before the convention. Oscar Strauss of New York is being most prominently considered.

Regardless of what action the republican and progressive conventions finally take, Victor Mordock of Kansas, chairman of the progressive national committee said the party would be maintained.

## TEUTONS CHARGE TO SURE DEATH

Ground Saturated With Blood at Scene of Attack on Vaux.

### BUTCHERY IS TERRIFIC

Russians Make Gains From Pripet Marshes to Roumanian Frontier.

LONDON, June 5.—In their repeated attacks on Fort Vaux, one of the outlying defenses of Verdun along the front east of the Meuse, the Germans are pushing forward their infantry in masses on compact lines. The first ranks are obliged to advance to certain death. The assaulting columns deluged from the village of Lamoulaye below the fort and separated from it by a ravine which they are obliged to cross to attain the slopes near the fort. For three days this spot has been the scene of carnage which has saturated the ground with blood.

All Fall at Dead Line.

One German column advanced no further than the bottom of the ravine. The front ranks, pushed on by those behind, fell as fast as they reached the dead line swept by the French snipe fire. As they toppled over, others came on to take their places and fall in turn.

French officers who have returned to Paris from the Verdun front, although hardened to the worst sights of war, declare the butchery there surpasses imagination.

#### Repeated Attacks Fail.

After falling in an assault Sunday morning east of Vaux, the crown prince's troops returned to the attack at night. The efforts were unsuccessful, Paris declares.

The Germans say that repeated attacks by masses of French infantry against German positions on the Verdun front east of the Meuse broke down with heavy losses.

#### Russians Win Successes.

Russian forces have won great successes along the front from the Pripet marshes to the Roumanian frontier, according to a Petrograd official announcement. It is stated the Russians took 12,000 prisoners.

The Turkish war office claims further successes against the Russian army operating west of Erzerum. The Russians, who recently were compelled to evacuate Marmakalan, have been forced to retreat some fifteen miles, according to Constantinople, sustaining large losses.

A Roter dispatch from Zurich says that members of the German landsturm, class of 1917, who are living abroad, have been ordered to return home immediately.

## \$1,500,000 TO BE GAIN SHOWN IN ASSESSMENTS

### Assessor's Report Indicates Gratifying Increase in County.

The total assessment of property values in Oklahoma county for 1915, including the gain on school lands sold, improvements on real estate and personal property, shows a total gain over 1914 of approximately \$1,500,000, according to the estimate submitted morning to County Assessor Moore.

The county board of equalization met in office of the assessor at 10 o'clock, reviewing his report and adjourned until 10 o'clock Wednesday morning.

The assessor's report shows the total assessment to date for Oklahoma county to be \$28,552,281, which will be increased by assessments against public service corporations and later returns of omitted properties as discovered by the tax force.

The total assessment valuation of real estate in the county is \$22,754,208. The total personal property valuation is \$1,400,000. The total valuation of improvements is \$4,398,073. The total valuation of personal property is \$1,400,000. The total valuation of improvements is \$4,398,073. The total valuation of personal property is \$1,400,000.

Real estate values for 1915 were \$22,754,208, an increase of \$1,400,000 over 1914. The total valuation of improvements is \$4,398,073. The total valuation of personal property is \$1,400,000.

It is expected that returns from the tax collector's office will bring the total increase over last year up to about \$1,500,000. These latter returns will be included when final report is made to the state board of equalization.

**\$200,000 Collected Late.**

Last year the assessor collected \$200,000 after the report had been made to the state board of equalization. The work of assessing omitted properties never ends. Most of the returns are on personal properties, but not infrequently town lots omitted in making the annual assessment are discovered.

Assessor Moore expresses the belief that the Oklahoma City school district will have an increase of about \$1,500,000.

## A Famous Physician's Wonderful Discovery

After a series of careful experiments and tests at the Invalide Hotel and Burgeon Institute, Buffalo, N. Y., covering many years—Dr. Pierce, the medical director of that hospital made announcement that he could prove that a medicine which he called "ANURIC" was the best uric acid solvent now to be had. As a remedy for those easily recognized symptoms of inflammation—swelling, uric, headache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, lumbago, sciatica, gout, it is simply wonderful how quickly "Anuric" acts, causing the pains and stiffness rapidly to disappear.

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists, or under the eyes in bag-like formations.

It is just as necessary to keep the kidneys acting properly as to keep the bowels active.

The very best possible way to take care of yourself is to take a glass of hot water before meals and an "Anuric" tablet in this way it is readily dissolved with the food, picked up by the blood and finally reaches the kidneys, where it has a tonic effect in rebuilding those organs.

Wrap into the drug store and ask for a 50-cent package of "Anuric" or send Dr. Pierce 10c for trial pkg "Anuric"—many times more potent than lithia, eliminates uric acid as hot water melts sugar. A short trial will convince you.—Adv.
